

## >> Electromagnetic Vibrator Controllers <<

For Bowl / Liner feeders New Advance Version (CVCF)  
Constant voltage, constant frequency controllers for smooth  
vibration and constant feed rate irrespective of change in  
supply voltage and frequency for Genset application.

### Specification

Supply : 230 / 415 VAC 2 phase 50 Hz  
Current : 3/6/10/15/30 Amp  
Voltage setting : Via potentiometer / 4 to 20 mA  
control signal  
Retransmission O/p : 4 to 20 ma for PLC  
Protections : Overload and fast acting fuses.
