

>> Level Sensors <<

RF Admittance Type Level Switches

- Three Element Coat Guard Technology
Ignores material build - up on Probe
- Applications : Sand levels, Cement, Lime etc.
- Supply : 24 VDC, 230 VAC
- Output : 2No+2NC

Ultrasonic Sensors

- Size : M18/30
- Supply : 24VDC
- Output : 0-10 VDC / 4-20 mA
- Sensing Dia : 600mm /1500mm

Vibrating Fork Type Level Switches

- Suitable for highly dusty environment

Photo Electric Level Sensor

- Infrared Sensor for liquid Level detection
- Ex-proof
- Supply : 24 VDC
- Output :PNP/NPN Type
- Dimension : 3/8 x74 mm
- Mounting Material : Polysulphone

Rotating Paddle Type Level Switches

- Motor torque adjustable
- Special Clutch mechanism to protect Motor
- Sealed bearing for Rotating shaft.

Magnetic Level Switches

- 2,3,4 point Switching Available
